Through the power of peer mentoring, ManyMentors will inspire, encourage and support minority and female students to gain interest in, pursue, and attain degrees in **Science, Technology, Engineering and Math (STEM)**!

About

Our Team

Our Partners

Our Supporters

ManyMentors is a 501(c)(3) nonprofit founded in 2011 to inspire, encourage, & support underrepresented students' interest in pursuing science, technology, engineering, & math (STEM) fields, & eventual entrance into the STEM workforce. From middle schoolers to young working professionals, we connect individuals to near-age mentors who can make opportunities in STEM become more visible, valuable & viable.

Why STEM?

Our Approach

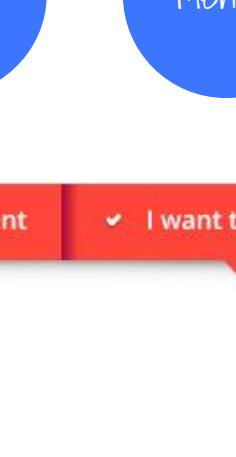

We use a combination of **in-person** & **online** mentoring to coordinate STEM volunteer outreach & facilitate one-on-one mentor/mentee matching & communication. Students gain access to resources, discover local opportunities, & develop professional skills in the STEM fields.

What We Are Seeking

- University students & young working professionals studying or with an academic background in the science, technology, engineering or math (STEM) fields.
- Committed individuals who want to use their knowledge, experience & insights to provide guidance to their mentees to aid in the upward progression of individuals in STEM fields.
- Diverse, enthusiastic, positive-minded people seeking to make a real difference in the life of a underrepresented middle or high school student.

What You Should Expect

- Quick and easy online application, training, and matching process.
- A seamless online STEM mentoring experience that takes no more than 15 minutes a week.
- Support from ManyMentors staff to encourage relevant discussion & provide materials about opportunities and interesting topics that can help guide your mentee towards reaching his or her goals.
- Opportunities to get involved in volunteerism your location area.
